# Smart Cloud Account & Cost Control

## AWS, Azure, Google Cloud & On-Prem IT Uncomplicated

Understand Your Cloud Accounts & Cut Costs

Cut cloud costs and simplify multi-cloud management: netTerrain makes it easy. Manage your AWS, Azure, Google Cloud, and on-premises IT from one intuitive platform - no manual needed. Focus on the metrics that matter most and easily gain control over your Cloud infrastructure.
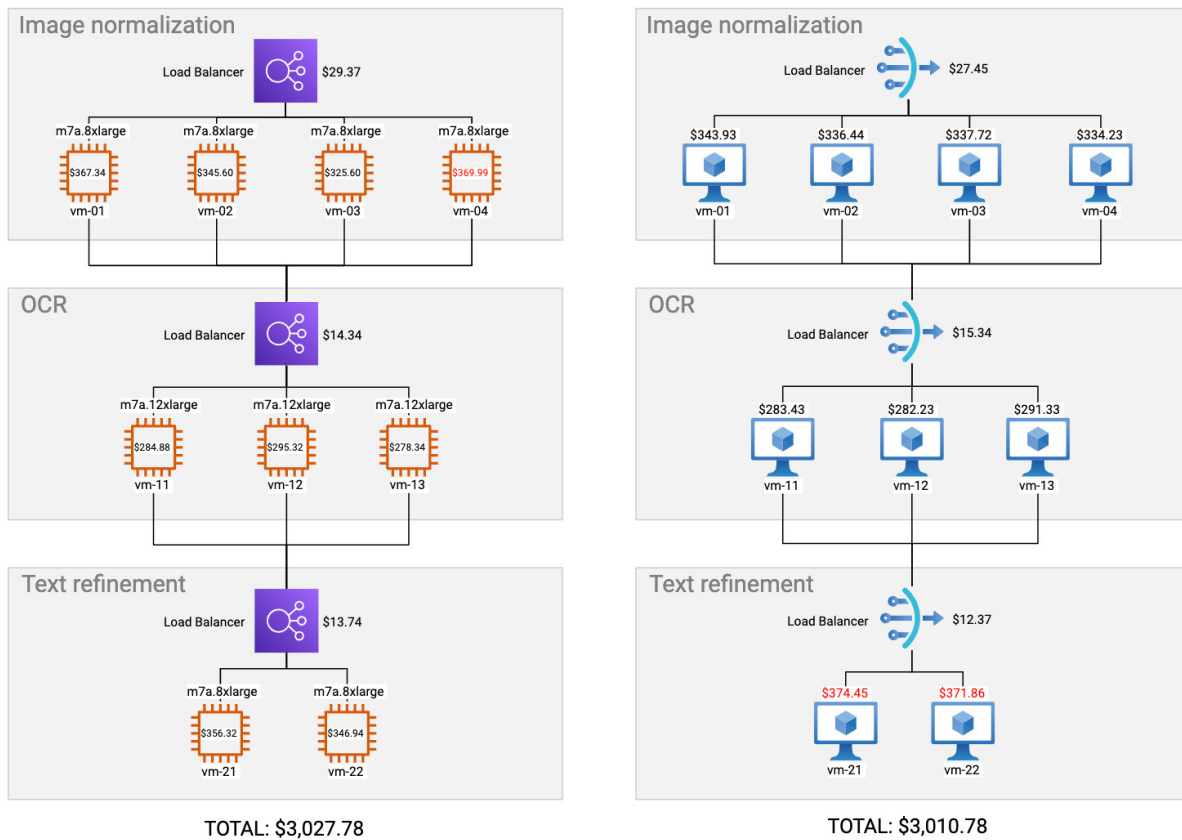

Simplify Cloud & Network Troubleshooting

- Quickly find cloud and network issues with easy-to-understand visuals and intuitive dashboards at your fingertips.
- Fix issues fast with clear insights that make it easy to understand your resources, usage, connections, and dependencies.
- Secure your infrastructure with audit-friendly diagrams, change history, and customized alerts.
- Stay ahead of the curve with automatic notifications and alerts that signal potential issues before they escalate.
- Drill down from a holistic view of your overall multi-account infrastructure to individual assets in clicks.

netTerrain: User-Friendly Software That Makes Cloud IT Easy.

One Central Hub for All Your Clouds:
Manage all your cloud accounts (AWS, Azure, Google Cloud, etc.) from one easy-to-use platform.

Reliable, Up-to-Date Documentation:
Track changes as they happen and effortlessly maintain accurate records with netTerrain's self-updating documentation and diagrams.

Insights That Speak Your Language:
Get the insights you need and focus on the metrics and data that matter most to your organization: block the noise that bogs down your work

Transparent Cloud Cost Insights & Control:
Gain a deep understanding of the true cost of your projects across different cloud resources and make smart choices.

Software

MS SQL Server 2014, 2016, 2019, 2022
Windows Server 2012, 2016, 2019
MS IIS 8.0 or better
NET Framework 4.5 or better

Hardware

Intel i7 Processor
10GB Free Space
8GB RAM
